

Our Services

1. Finsmart AI Product

Automated Financial Reporting

What It Is:

A cutting-edge, user-friendly platform that automates your financial reporting and delivers real-time insights.

Key Features:

- Intuitive dashboards to monitor cash flow, profitability, and sustainability.
- Easy to understand monitoring of KPI's like runway, MRR, churn, CAC, CLV etc. that are relevant to your business model.
- Data integration for seamless financial tracking.
- Instant generation of financial reports.

Who It's For:

Companies looking for an affordable, tech-driven solution to simplify their financial management.

The Benefit:

Save time, reduce errors, and gain valuable insights for better decision-making.

2. CFO Touch

AI-Powered Financial Expertise with a Personal Touch

What It Is:

A hybrid service combining automated insights with personalized guidance from experienced finance professionals.

Key Features:

- Regular financial reviews and strategic advice.
- Proactive identification of growth and cost-saving opportunities.
- Tailored support for your specific business needs.

Who It's For:

Businesses that need expert-level advice without the cost of a full-time CFO.

The Benefit

Leverage expert insights to make confident financial decisions and optimize your growth potential.

3. Part-Time CFO

Dedicated Financial Leadership, On Demand

What It Is:

A fully outsourced CFO service providing hands-on financial management and strategic leadership.

Key Features:

- In-depth financial planning and forecasting.
- Leadership in fundraising, M&A, or major financial transformations.
- Collaboration with your team to implement financial best practices.

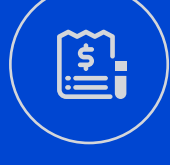

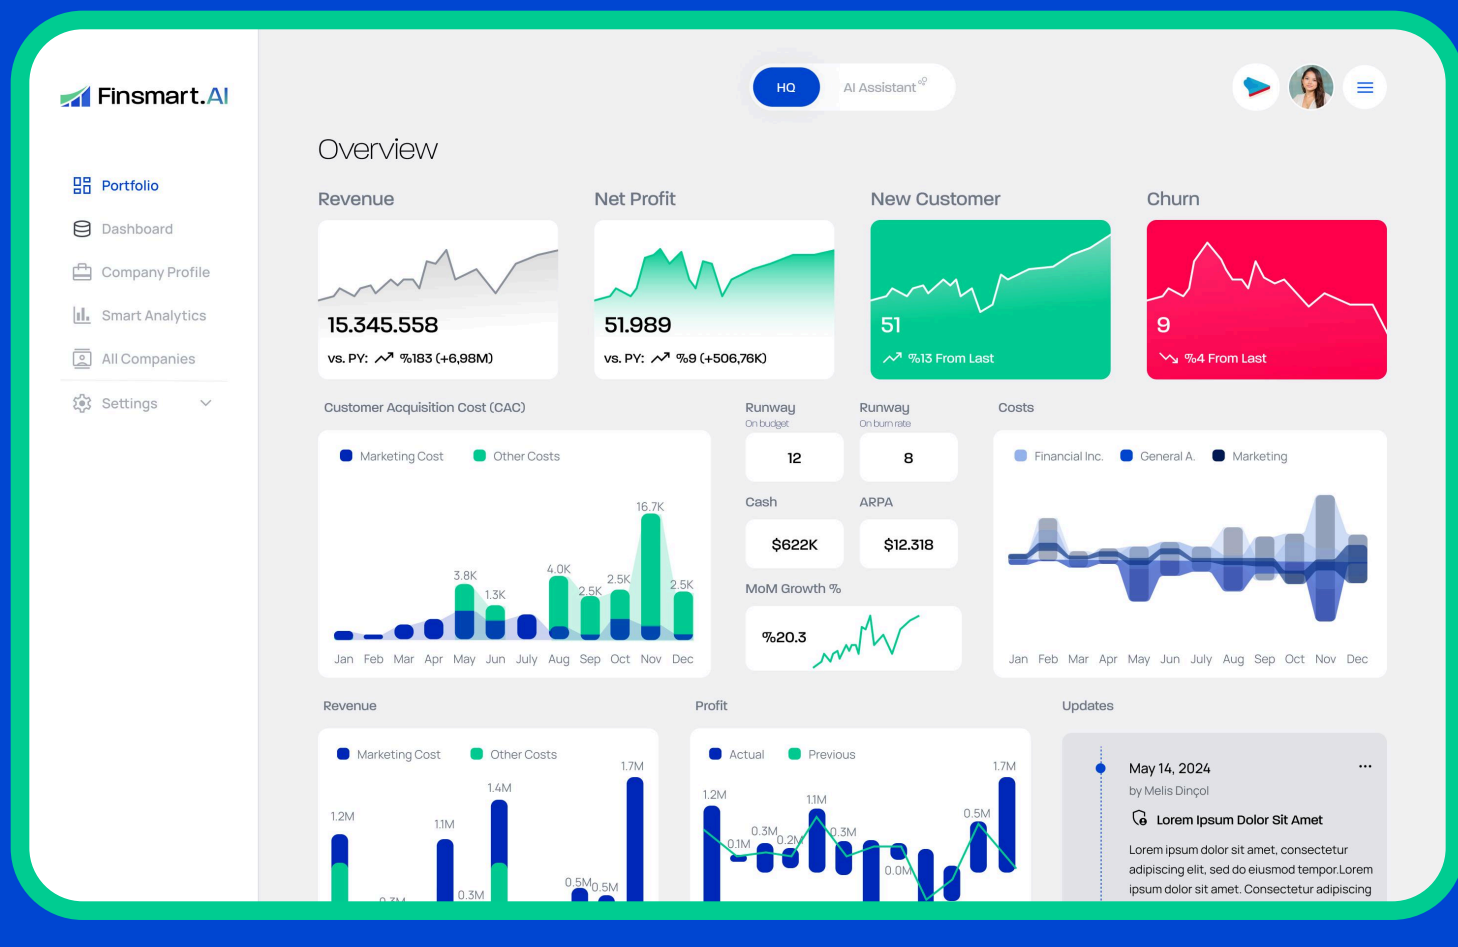

Who It's For:

- Companies requiring senior financial expertise on a flexible, part-time basis.

The Benefit

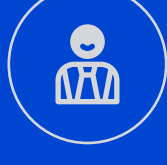

- Access the skills and experience of a CFO without the full-time commitment.
